

NETWORK SECURITY THREAT DETECTION AND COUNTER MEASURES WORKSHOP

August 17 -19 , 2016

Workshop Overview

The goal of this workshop is to equip you with the skills to monitor your network, find the weak points, detection of intrusion, designing and deployment of sensors for full packet capture . Knowledge transfer of Bro platform, which is a powerful network analysis framework, well grounded in more than 15 years of research.

Workshop Outline

- ✓ Introduction to network security monitoring.
- ✓ Introduction to penetration testing
- ✓ Network Intrusion detection
- ✓ The Sensor platform
- ✓ Collection and Analysis of session data
- ✓ Full packet capture data collection and management
- ✓ Signature based detection
- ✓ The Bro Platform
- ✓ Log Analysis
- ✓ 60% lecture and 40% lab
- ✓ Timing : 9 am to 4 pm

Resource Person

Irfan Ahmed

VCP-DCV, ACMP, ACCP, JNCIP-SEC, CCNP, MCSE

Sami Ullah

CEH, NSS developer, CCNA -SEC

TARGET AUDIENCE

- ❖ Network Security / IT Managers
- ❖ Data Network Analysis Engineers
- ❖ System / Network Administrators
- ❖ IT Professionals

WHO SHOULD ATTEND

- ❖ Organizations / Individuals interested in knowing the inside of their networks and are serious about protecting their networks from inside and outside attacks.

COURSE FEE

- ❖ PKR 15,000 /person
- ❖ Group / Student concession available
- ❖ Fee includes training material , lunch and refreshments.
